

Installation

To edit code, you'll need to install a text editor of your choice. Our online staff use Visual Studio Code.

- **Visual Studio Code (highly recommended)** - <https://code.visualstudio.com/>
- **Atom** - <https://atom.io/>
- **Sublime** - <http://www.sublimetext.com/>

The following installation is optional and you won't use it until the Javascript chapter, but it is not required to run Javascript:

- **NodeJS** - <https://nodejs.org/en/>
